

Sprint 9 - Thais Alcaide

Nivell 1

Crea una base de dades amb MongoDB utilitzant com a col·leccions els arxius adjunts.

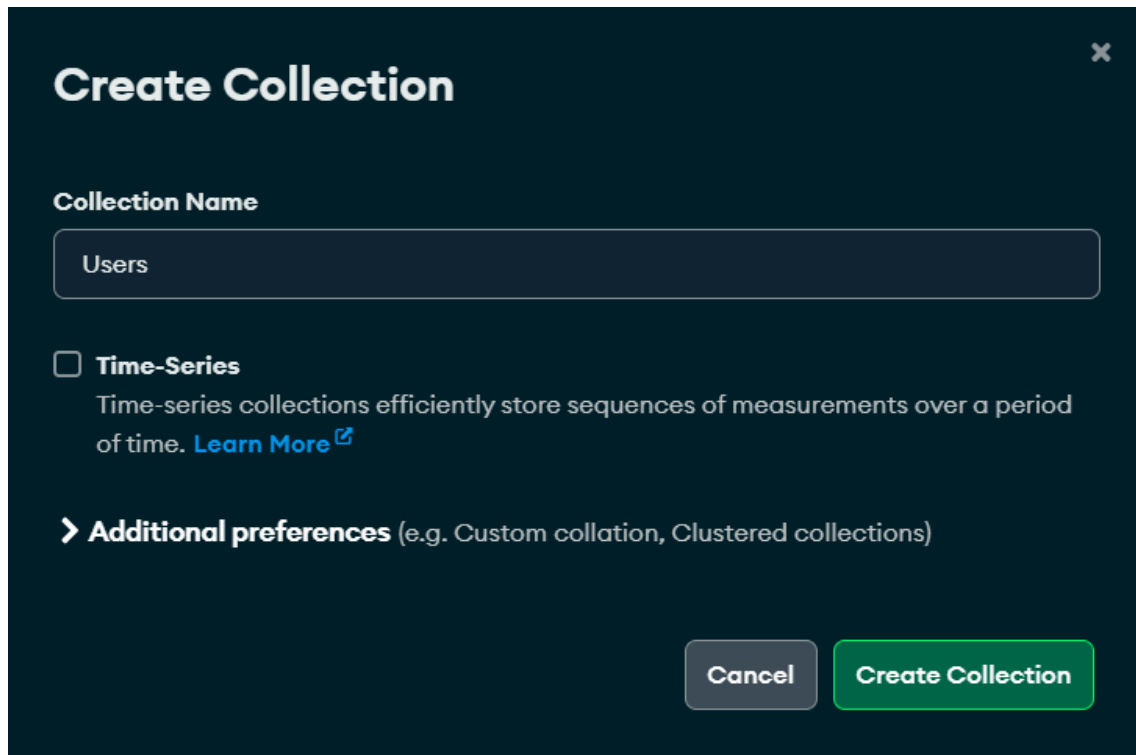

Creo una database, que he anomenat “cinema”, on afegiré com a collection totes les taules del sprint 9 en format json que ens han proporcionat:

The screenshot shows the 'Create Database' dialog box in MongoDB. It has a dark blue background and a close button (X) in the top right corner. The dialog contains the following elements:

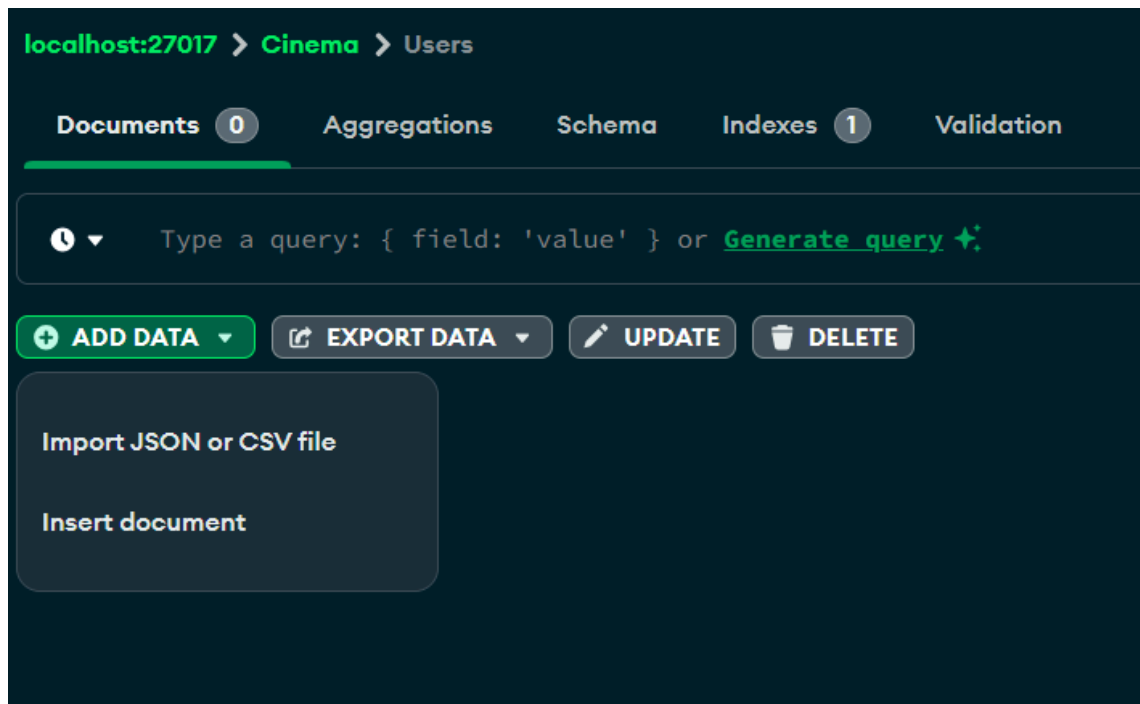

- Create Database**: The title of the dialog.
- Database Name**: A label above a text input field containing the text 'Cinema'.
- Collection Name**: A label above an empty text input field.
- ☐ **Time-Series**: A checkbox followed by the text 'Time-series collections efficiently store sequences of measurements over a period of time. [Learn More](#)'.
- > Additional preferences** (e.g. Custom collation, Clustered collections): A section header with a chevron icon.
- Information box**: A blue box with a white 'i' icon containing the text: 'Before MongoDB can save your new database, a collection name must also be specified at the time of creation. [More Information](#)'.
- Buttons**: Two buttons at the bottom right: 'Cancel' and 'Create Database'.

Per exemple, aquí està la creació del collection “users”:

The image shows a 'Create Collection' dialog box with a dark blue background. At the top, the title 'Create Collection' is in white, with a close button (X) to its right. Below the title, the 'Collection Name' is entered as 'Users' in a text input field. A checkbox for 'Time-Series' is unchecked, with a description: 'Time-series collections efficiently store sequences of measurements over a period of time. [Learn More](#)'. Below this, there is a section for 'Additional preferences' with a right-pointing arrow and the text '(e.g. Custom collation, Clustered collections)'. At the bottom right, there are two buttons: a grey 'Cancel' button and a green 'Create Collection' button.

Ara afegim la data de l'arxiu json:

The image shows the MongoDB Compass interface for the 'Users' collection. The breadcrumb path at the top is 'localhost:27017 > Cinema > Users'. Below this, there are tabs for 'Documents' (0), 'Aggregations', 'Schema', 'Indexes' (1), and 'Validation'. The 'Documents' tab is selected. Below the tabs, there is a search bar with a clock icon and a dropdown arrow, containing the text 'Type a query: { field: 'value' } or [Generate query](#)'. Below the search bar, there are four buttons: 'ADD DATA' (green with a plus icon), 'EXPORT DATA' (grey with a download icon), 'UPDATE' (grey with a pencil icon), and 'DELETE' (grey with a trash icon). Below these buttons, there is a dark blue box with two options: 'Import JSON or CSV file' and 'Insert document'.

Busquem l'arxiu al nostre pc i l'importem:

Import

To collection Cinema.Users

Import file: users.json 

Options

☐ Stop on errors

CancelImport

Finalment tindrem tota la informació pujada:

localhost:27017 > Cinema > Users Open MongoDB shell

Documents 185 Aggregations Schema Indexes 1 Validation

Type a query: { field: 'value' } or [Generate query](#) Explain Reset Find Options

- Exercici 1

- **Mostra els 2 primers comentaris que hi ha en la base de dades.**

Utilitzo la collection Comments i demano que em busqui els resultats ordenats per data en ordre descendent i un limit de 2 que son els que es demanen.

```
db.getCollection('Comments').find().sort({date:1}).limit(2)
```

```
> db.getCollection('Comments').find().sort({date:1}).limit(2)
< {
  _id: ObjectId('5a9427648b0beebe695e67e'),
  name: 'Mercedes Tyler',
  email: 'mercedes_tyler@fakegmail.com',
  movie_id: ObjectId('573a1399f29313caabcec3ce'),
  text: 'Optio totam dolores magni. Enim ratione fuga tempora voluptatum est cumque animi. Quia nam doloribus corrupti id voluptate esse.',
  date: 1970-01-01T01:07:09.000Z
}
{
  _id: ObjectId('5a9427658b0beebe6969efe'),
  name: 'Jon Snow',
  email: 'kit_harington@gameofthron.es',
  movie_id: ObjectId('573a13a4f29313caabd117df'),
  text: 'Dolorem animi tempora ullam quas. Iusto nobis reprehenderit aspernatur cupiditate a tempore. Commodi alias expedita dolore explic',
  date: 1970-01-01T09:37:49.000Z
}
```

- **Quants usuaris tenim registrats?**

Utilitzo la collection Users i faig un count del numero de registres.

```
db.getCollection('Users').countDocuments()
```

```
> db.getCollection('Users').countDocuments()
< 185
```

- **Quants cinemes hi ha en l'estat de Califòrnia?**

Utilitzo la collection Theatres i busco a les dades aninadades location/address/state que tenen 'CA', abreviatura de Califòrnia. Després faig un count per saber el numero de cinemes.

```
db.getCollection('Theatres').find({'location.address.state':'CA'}).count()
```

```
> db.getCollection('Theatres').find({'location.address.state':'CA'}).count()
< 169
```

- **Quin va ser el primer usuari/ària en registrar-se?**

Utilitzo la collection Users i ordeno els resultats per id i el primer.

```
db.getCollection('Users').find().sort({_id:1}).limit(1)
```

```
> db.getCollection('Users').find().sort({_id:1}).limit(1)
< {
  _id: ObjectId('59b99db4cfa9a34dcd7885b6'),
  name: 'Ned Stark',
  email: 'sean_bean@gameofthron.es',
  password: '$2b$12$UREFwsRUoyF0CRqGNK0Lz00HM/jLhgUCNNIJ9RJAqMUQ74cr1J1Vu'
}
```

- **Quantes pel·lícules de comèdia hi ha en la nostra base de dades?**

Utilitzo la collection Movies i demano que només busqui els resultats del gènere Comedy, després faig un count per saber el numero de pel·lícules.

```
db.getCollection('Movies').find({'genres':'Comedy'}).count()
```

```
> db.getCollection('Movies').find({'genres':'Comedy'}).count()
< 7024
```

- Exercici 2

Mostra'm tots els documents de les pel·lícules produïdes en 1932, però que el gènere sigui drama o estiguin en francès.

Utilitzo la collection Movies, busco per any 1932 i afegeixo \$or perquè també compleixi les condicions de gènere drama o idioma francès.

```
db.getCollection('Movies').find({'year':1932,$or: [{'genres':'Drama'}, {'languages': 'French'}]})
```

```
> db.getCollection('Movies').find({'year':1932,$or: [{'genres':'Drama'}, {'languages': 'French'}]})
< {
  _id: ObjectId('573a1391f29313caabcd9458'),
